Subject: New Analytical Requests for Follow-on Sampling - Dimock Residential well Site

Dan, John:

Attached are new analytical requests to support the next round of sampling scheduled to be conducted at Dimock Residential Well Site on March 5-6, 2012. These requests are for the most part the same as the last round except for a few analyses and/or analytes that have been dropped for this round. The analyses have been segregated based on the laboratories that performed the analyses last event (EPA Region 3, Regions 2 and 9, and NAREL).

The sampling plan should be on file. We are currently making minor revisions to the approved sampling plan. We will submit the revised plan later today.
